## EDUCATION

**UWM in Olsztyn**

2025 - 2026
**COMPUTER SCIENCE - MASTER'S STUDIES**

2022 - 2025
**COMPUTER SCIENCE - ENGINEERING STUDIES**

## PROFILE INFO

I build web applications with React, TypeScript and Next.js. I combine hands-on IT support with independent software projects, from needs analysis to deployment. When working with Codex and Claude Code, I define tasks, plan project structure, review changes and validate results using available npm scripts.

## PROJECTS

**COUNTER** tool deployed at a public office

*React | TypeScript | Vite | Zustand* Demo | *Code*

Automates conversion of employee time-away records from minutes to hours, entry management and XLSX exports. Delivered from requirements analysis through deployment.

**WORK OUT** workout progress platform

*Next.js | TypeScript | Supabase | PostgreSQL | RLS | Recharts* Demo | *Code*

Designed the data model and 21 Row Level Security policies for access to plans and private data. Training history, progress charts, authentication, email confirmation and account management.

**CALCULATOR** function graphing calculator

*React | TypeScript | Vitest | React Router* Demo | *Code*

Tokenizer and recursive-descent parser generating an AST without eval, used for expression calculation and plotting. Keyboard support and ARIA labels for interactive controls.

## EXPERIENCE

### IT SPECIALIST / IT SUPPORT

*District Office in Lidzbark Warmiński*

- ***Sep 2025 - Sep 2026***

  *Systems and network infrastructure administration, user support across several locations, and deployment of the Counter application.*

*I consent to the processing of my personal data for recruitment purposes under applicable law.*
